About EPRIPL

Enviro Policy Research India Pvt Ltd (EPRI) is formerly known as Environment Policy and Research India. Environment Policy and Research India is operating in the field of environment since 2010. In 2015; Environment Policy and Research India was converted in to private limited company and it is operating since as Enviro Policy Research India Pvt Ltd (EPRI). Recently, EPRI has also being registered as an ISO 9001:2015 certified company.

It provides services in all the specialized sector of environment and energy. Its mandate is to act as a think tank and provide strategic solutions to the client, Indian Government and others through its team of experience and diversified knowledge. Besides EPRI provides solution oriented towards better environment and energy planning for industries and building units. However, its major focus is on pure scientific and engineering training, research, environment system modeling, national-international knowledge management. We are a team of trained environmental professionals with skills in engineering, science, economics, planning, audits, data analysts, policy analyses and its impact etc. EPRI is supported by experts from India as well as abroad who not only provide wide ranging knowledge but also provide the diversity of expertise. EPRI provides services within India for its client from India as well as abroad. Some of the recent collaborators are Japanese Automotive Research Institute (JARI), TTI, Texas A&M University, Sardar Patel College of Engineering (SPCE), Khalsa College, SIES College, etc.

EPRI aims to provide services which are not study oriented but provide appropriate solutions which are not only cost effective but also fit into the environment settings. Its team also provides integrated services which aims at compliance monitoring and reporting with a view to always keep a client aware of its responsibility and save it from any legal issues in future. The team at EPRI is also committed to promote and bring in the technologies which will make a difference to the society not only for urban India but also rural which has hitherto remained untouched by technology progress.

This focuses on the achievement of results, through quantified quality objectives, to satisfy the needs, expectations and requirements of its Clients. Also, the system provides a framework for continual improvement of its effectiveness aimed at ultimately, enhancing Client satisfaction.

Completed Projects in SWM Sectors

Project Name: Landfill Gas Estimations

Achievements:

- Site survey
- Topographic Survey
- Hydrological survey
- Contour assessment
- Estimating landfill gas using bore well method
- Estimating using LandTec
- Providing estimation for landfill gas
- Methane potential
- Report for estimating the landfill gas to energy

Funded by Texas University and Methane to Market

Completed Projects in SWM Sectors

Project Name: Audit of Solid Waste management facilities across India

Achievements:

- Site survey
- Assessing various waste processing plants across India
- **Technologies assessed: Biogas, Composting**
- Assessment of air and odour pollutants
- Providing technical solution to improve the current conditions

Client: Hanjer Biotech Energies Pvt Ltd

Year: 2011 - 12

Completed Projects in SWM Sectors

Project Name: Preparation of Odour Management Guideline for Solid Waste Processing Plants

Achievements:

- Site survey
- Background odour assessment at the waste processing sites
- Developing odour management and control guidelines
- Site specific design for control of odour

Client: Hanjer Biotech Energies Pvt Ltd

Year: 2011 - 12

Completed Projects in SWM Sectors

Project Name: Supply of In Vessel Composting Unit (IVC)

Achievements:

- Site survey
- Waste estimation as per CPHEEO manual or local norms
- Supply of IVC unit (works without electricity)
